

Escape the Daily Grind—Work in Monterey!
Senior LAMP Developer
February 2017

Experience Sierra:

Live and work in the beautiful Monterey area and build a career with Sierra, a family-owned, growth-oriented global company in the process control and automotive test sectors. We are looking for an experienced LAMP developer to join our fast-paced team environment which values individualism, healthy work-life balance, innovation, and fun.

It has always been our dream that Sierra be built on innovation, creative opportunity, entrepreneurial spirit, and team camaraderie. Discover our culture, a family owned, open atmosphere for interaction that emphasizes individuality, respect, growth, and strong customer relationships.

With more than 150 locations in over 50 countries, we design and manufacture innovative high performance fluid flow measurement and control instrumentation for nearly any gas, liquid and steam application spanning across global industries as diverse as scientific research, semiconductor, wastewater treatment, iron and steel, clean energy, aerospace and biotech to name a few.
