

Product Change Notification (PCN)

CalTrak to DryCal Name Change

Issue Date: April 28, 2026

Effective Date: May 28, 2026

Change type: Product name / labeling / documentation update

Affected Product

This notice applies to the product identified as **CalTrak**, which will be renamed **DryCal**.

Current Product Name	New Product Name	New Ordering Code	Implementation Date
CalTrak 800	DryCal 800	200-800-DCB	May 21, 2026
CalTrak XL-500	DryCal 1020	200-1020	May 21, 2026
CalTrak XL-1500	DryCal 1500	200-1500	May 21, 2026

In addition to the parent codes changing, the ordering codes for flow cells and other features have also changed. See datasheets for updated codes.

Description of Change

Effective May 21, 2026, all quotations, order acknowledgements, invoices, packing slips, product labels, calibration certificates, manuals, website references, and other commercial or technical documentation will all reference the new product names and codes.

Reason for Change

This change is being made to align branding and market identity under the **DryCal** name.

Product Impact

This is a **name, labeling, and documentation change only**. No change is being made to product form, fit, function, performance, calibration, quality, or availability as part of this notification, unless separately communicated in writing.

Customer Actions Requested

- Update purchasing, approved vendor, quality, and document-control records to replace **CalTrak** with **DryCal**.
- Update internal records, purchasing systems, approved product lists, and related documentation to reflect the new product names **DryCal 800, DryCal 1020, and DryCal 1500**.

During the transition period, either name may appear on legacy records while systems are being updated.

Additional notes

- This notification does not by itself announce end-of-life, discontinuance, or obsolescence of the product.
- If any future changes affect specifications, materials, packaging configuration, regulatory declarations, or performance, those changes will be communicated separately as appropriate.
