

## Sierra Instruments Relocates Its Global Headquarters

**November 5, 2024—Monterey, California—**[Sierra Instruments, Inc.](https://www.sierrainstruments.com) has announced that it is relocating its headquarters to a new state-of-the-art facility in Monterey, CA, adjacent to its current location. The move will enable Sierra to expand operational excellence, increase efficiency, and improve throughput for innovative new flow measurement solutions.

The new facility at 20 Ryan Ranch Road, Suite 109, Monterey, CA, which covers more than 50,000 square feet, includes state-of-the-art manufacturing facilities, a contemporary office space, and engineering labs to accommodate a growing research and development department. The design of the space leaned heavily on a corporate commitment to sustainability, with the latest energy-saving technology being used throughout, including intelligent LED lighting, energy-efficient compressors, and state-of-the-art energy-efficient air/heating systems.

“We are very excited about transitioning to our new building, says James Earle, General Manager TASI Gas Flow / Sierra Instruments. “The production floor is designed to facilitate more efficient manufacturing, which will lead to improved lead times for our customers. A range of new technologies have been commissioned including a new clean room with ISO 7 cleanliness capability.”

The move to this new facility further demonstrates Sierra's commitment to sustainability and operational processes, along with a focus on efficiency and customer service, which are Measurably Different.
